

ALL TERRAIN

HIGH PERFORMANCE STACKERS

McCloskey has taken the next big step in its industry leading designs by adding the groundbreaking new All-Terrain Stackers to its line-up. Blending the benefits of onsite track mobility with the high productivity of a radial conveyor, the All-Terrain Stackers allow the conveyor to switch from track mode to radial in seconds.

Designed for use in any terrain, the stackers, ranging from 60' to 150', are easily moved site to site without the need to remove the wheels for transport. Built-in levelling indicators allow operators to position the stacker regardless of the ground evenness, with independent hydraulic jack legs to stabilize once in place.

The McCloskey design allows for the wheels to be folded for transport, delivering true portability for operators moving from site to site.

ST80TR All-Terrain

FAST TRACK SWITCHING
Hydraulic raise/lower arm allows switch from track to radial mode in seconds

ON THE LEVEL
Level gauge allows operation on uneven ground

GREATER STABILITY
Patented counterweight design delivers enhanced stability and safety in operation

MORE TRACTION
Tires have aggressive-tread patterns for better traction in rough terrain

HEAVY DUTY BELT
Conveyor built with Heavy Duty 36" - 3 ply- belt. Stacker design delivers higher stockpile capacity, with radial wheels set well back.

READY TO ROLL
Unique design allows for the wheels to be folded for transport, delivering true portability for operators moving from site to site.

ST80T

Engine	Diesel or Electric
Belt Length	80' (24.38m)
Belt Width	36" (900mm) - 3 ply
Stockpile Height	31' 1" (9.47m)
Stockpile Capacity	2035 yds ³ (1556 m ³)
Production	500 - 800 US TPH
